“How could such evil happen in a civilized country like Austria. The jewish people at the time enhanced the country in many ways.

**The pictures of what was done to the jews at the time of Kristallnacht and afterwards are beyond belief to look at.**

**Living in London I know so many people who never saw parents, sisters and brothers ever again and had to live with this all their lives.**

But despite all that happened Hitler and his followers did not succeed in their evil intention of destroying the jewish people. I just hope and pray that such evil will never ever happen again.”
